GLAZEALARM®

SMART GLAZING ALERT SYSTEM

GLAZEALARM.COM

WELCOME TO GLAZEALARM®

The GlazeAlarm is an IoT wireless sensor system, which is built into a double-glazed unit at the point of manufacture. Our patented technology constantly measures shock, temperature and humidity inside each unit and alerts the user to a breakage via their chosen smart device. In the event of a break-in the GlazeAlarm is designed to raise an alarm before an intruder actually enters the property.

The GlazeAlarm also provides glazing manufacturers with the ability to monitor the performance and integrity of every individual unit over its entire life.

PRODUCT DIFFERENTIATION

SIMPLE INTEGRATION

Safety and security of homes and offices can be managed remotely using our IOS, Android and Windows apps on smart-phones and tablets.

SMART GLAZING ALERT SYSTEM

- Keys now able to fit in 12, 14, 16, 18 and 20mm window cavities

- Replaceable or rechargeable battery pack

- Future proofing for new battery technology and solar charging

- GlazeAlarms to last longer than the windows

BUILDING ON OUR CORE TECHNOLOGY TO DISCOVER AND DEVELOP NEW USES FOR OUR UNIQUE SENSOR SYSTEM

- Adopting solar power technology to further extend the battery life beyond 15 years

- A range of unit widths including external battery versions to fit all sizes of DGUs

- Incorporating the data collected into Building Information Modelling (BIM) platforms

- Using temperature data for remote thermostatic control

- Offering fire alarm cover for the exterior of high-rise buildings

- Integrating the GlazeAlarm into a wide range of security and sustainability products

BENEFITS FOR MANUFACTURERS AND DISTRIBUTORS

SIMPLE INTEGRATION
Designed to have minimal impact on the window manufacturing process

PLUG AND GO
The entire solution is plug and go causing no impact to the installation process

CUSTOMER SERVICE
After-sales support provided by GlazeAlarm qualified personnel

CUSTOMER ENGAGEMENT
Remain engaged with customers through our data capture capabilities

From your home to your office, for security and sustainability, use GlazeAlarm.
